Summary

Software Developer and **Computer Science Engineering** student focused on backend and full-stack development with **Java**, **Spring Boot**, **REST APIs**, **React**, **MySQL**, **JWT authentication**, role-based access, CRUD workflows, search, pagination, dashboards, testing, and deployment. Experienced with **Docker**, **Render**, and **Vercel**. Strong foundation in **Data Structures**, **Algorithms**, **OOP**, and **RDBMS**.

Technical Skills

Languages: Java, C, C++, Python, **SQL**, **JavaScript**, HTML, CSS

Backend: **Spring Boot**, **Spring Security**, **Spring Data JPA**, Hibernate, **REST APIs**, **JWT**, Maven

Frontend: **React**, Vite, React Router, Axios, Responsive UI, HTML, CSS

Databases/Tools: **MySQL**, MongoDB, H2, Git, GitHub, Postman, **Swagger/OpenAPI**, **JUnit**, **Docker**, **Render**, **Vercel**, AWS S3

Coursework: Data Structures, Algorithms, Operating Systems, Object-Oriented Programming, RDBMS

Projects

Dayfolio | Full-Stack Blogging Platform

React, Spring Boot, REST APIs, MySQL, JWT, AWS S3

Full-stack publishing platform with secure post creation, uploads, comments, likes, and discovery.

- Engineered a full-stack blogging platform with **27 REST endpoints** covering authentication, users, posts, categories, comments, likes, search, pagination, image upload, and profile management.
- Secured routes with **JWT authentication**, session-expiry handling, password hashing, and **2-role authorization** for admin and author-owned content workflows.
- Delivered **8+ React pages** and connected **MySQL**, JPA/Hibernate relationships, global exception handling, duplicate category prevention, and S3 media storage.
- Strengthened reliability with ownership-aware comment deletion, long-form post support, responsive image handling, and session validation for expired login states.

CampusBaazar | **Live Demo** | Full-Stack Student Marketplace

React, Spring Boot, Spring Security, JWT, JPA, H2, REST APIs

Deployed campus marketplace for buying, selling, requesting, and sharing study materials.

- Architected a student marketplace with **33 backend endpoints** across authentication, listings, orders, profile dashboards, admin operations, AI descriptions, and study-material sharing.
- Orchestrated **3-role workflows** for buyers, sellers, and admins, including saved items, cart, buy-now requests, stock validation, and sold-state automation.
- Validated core logic with optional Spring AI listing-description generation and **8 JUnit tests** for JWT validation, AI prompts, profile statuses, and inventory rules.
- Containerized the **Spring Boot backend using Docker** and deployed it on **Render**, with the responsive React frontend deployed on **Vercel**.

Inventory Management System

Java 21, Spring Boot, REST APIs, Spring Data JPA, H2, Maven, Lombok

Inventory REST API for product catalog CRUD operations with database persistence.

- Developed a Spring Boot product inventory API with **5 REST endpoints** for listing products, retrieving by ID, creating, updating, and deleting records.
- Separated controller, service, and repository layers to keep request handling, business logic, and H2 persistence easy to maintain.
- Modeled product data with JPA entity fields for product ID, name, and price, using Lombok to reduce boilerplate code.
- Configured Maven with Java 21, Spring Boot Web, Spring Data JPA, H2, DevTools, and Spring Boot testing dependencies.

Education

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

2023 - 2027

B.Tech. in Computer Science and Engineering | Ajay Kumar Garg Engineering College (AKGEC), Ghaziabad | CGPA: 7.59 / 10.00

Tulip Public School, Etah

2022

Class 12, CBSE | Percentage: 90.00 / 100.00

Tulip Public School, Etah

2020

Class 10, CBSE | Percentage: 94.00 / 100.00

Certifications and Achievements

- Solved **500+ programming problems** across coding platforms, strengthening problem-solving, data structures, and algorithmic thinking.
- Completed **74 Google Cloud badges** through Google Cloud Arcade Facilitator Program: Cloud Skills Boost Profile.
- Achieved **2nd rank** with my team in Smart India Hackathon (SIH) 2025 college-level round.
- Earned **3rd place** in a college-level hackathon by building and presenting a working software solution under time constraints.
